

Total Closure

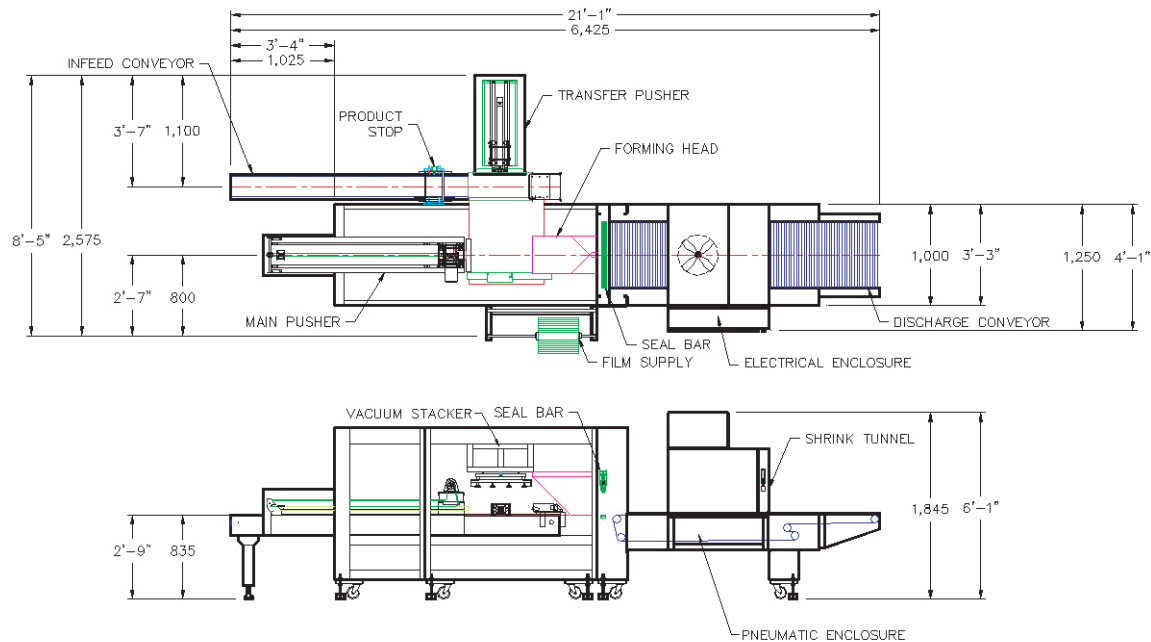

- **Intermittent motion sealing with total closure wraps**
- **Automatic product collation**
- **Forming plows**
Contain no moving parts for simplicity and reliability
- **Inline or side infeed production**
- **Collation assemblies**
Divide, reorient, rotate, upend, multirow or stack product
- **Production speeds**
*Up to 30 wraps per minute single lane,
50 per minute dual lane*
- **Compatible with LDPE, PVC and PO films**

FH Series

Model Shown: FH 24-32H

Equipment Benefits

- Heavy gauge, stainless steel construction provides strength, rigidity, cleanliness and minimal maintenance
- Forming plows produce no film waste
- Runs clear, random or print registered film
- Quick tool-free forming plow change out eliminates time consuming, costly operator adjustments and maladjustments
- Self leveling, Teflon® coated, hot knife seal bar
- Polycarbonate enclosures ensure safety and easy accessibility
- Engineered as a complete unit with a double insulated tunnel that reduces energy consumption
- Quick changeovers
- PLC touchscreen interface
- Stainless steel, solid rod tunnel conveyors, free of belts or coatings
