

## Total Closure

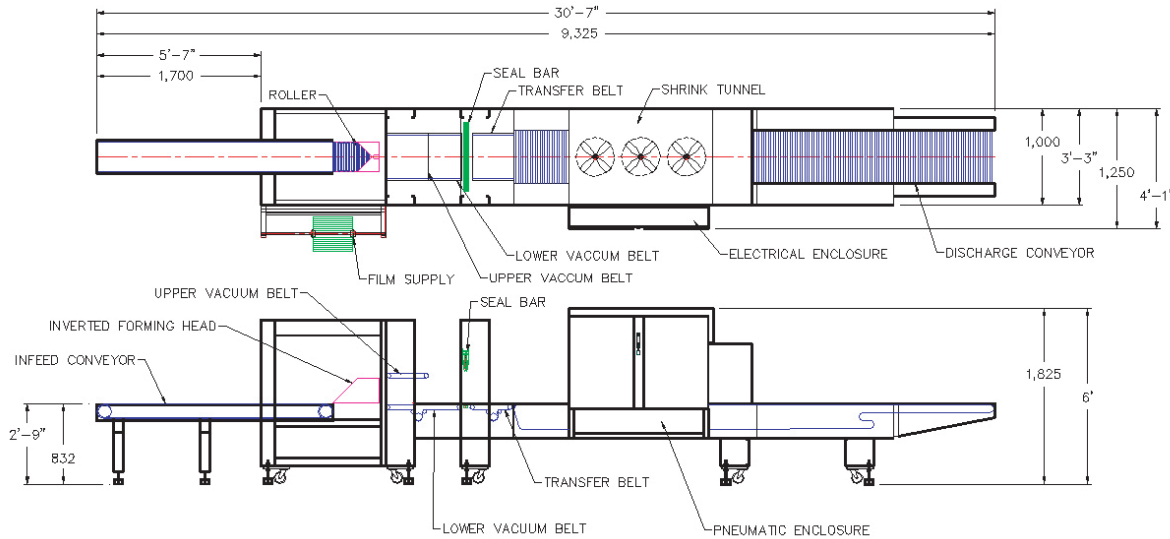

- **Intermittent motion sealing**  
*With total closure wraps for large rectangular or round products ranging up to 32 inches in diameter*
- **Length versatility ranging between 10 inches and 20 feet**
- **Forming plows contain no moving parts for simplicity and reliability**
- **Speeds up to 25 cycles per minute**
- **Inline production**
- **Automatic product collation available**  
*Including orientation, rotation and stacking*

# FIL Series

Model Shown: FIL 24-32 CL(3)

## Equipment Benefits

- Heavy gauge, stainless steel construction provides strength, rigidity, cleanliness and minimal maintenance
- Available with round forming heads for round products to reduce film usage
- Forming plows produce no film waste
- Runs clear, random or print registered film
- Quick change forming heads minimize changeover time and maximize product flexibility
- Self leveling, Teflon® coated, hot knife seal bar assembly
- Engineered as a complete unit with a double insulated tunnel that reduces energy consumption
- PLC with touchscreen interface
- Stainless steel, solid rod tunnel conveyors, free of belts or coatings
