

## Sleeve Wrap

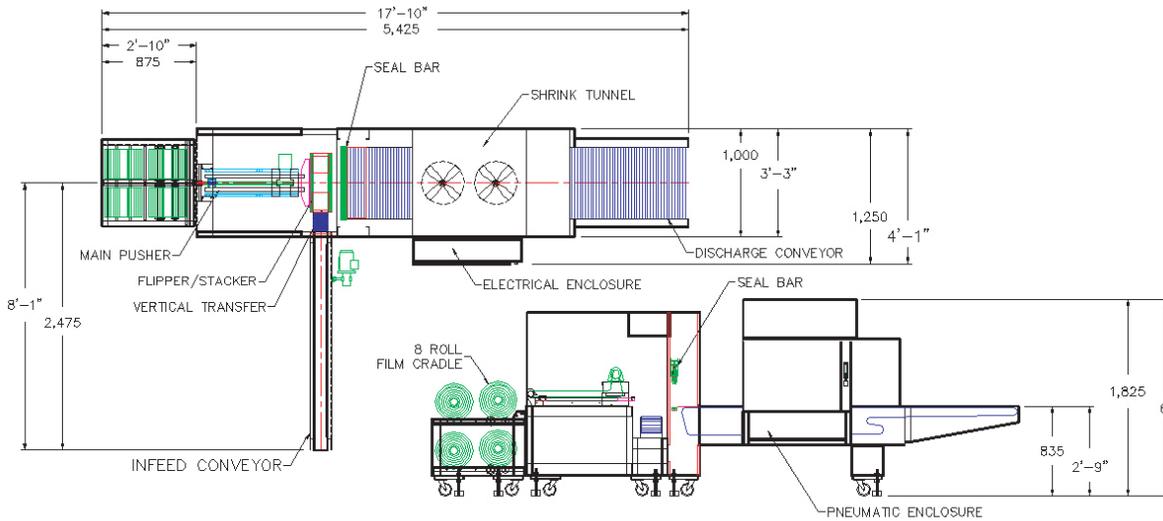

- **Intermittent motion sealing**  
*With sleeve (bullseye) wrap packaging*
- **Uses a motorized pusher assembly**  
*Transfers product to the wrapping/sealing section*
- **Gates, barriers and decompression plates**  
*Alleviate "back pressure" induced problems when running flexible products*
- **Collation assemblies**  
*Divide, reorient, rotate, upend, multi-row or stack product as required*
- **Inline or side infeed**
- **Self monitoring diagnostics available**
- **Production speeds**  
*Up to 30 wraps per minute single lane, 50 per minute in dual lane*
- **Stabilizing modules and guides**  
*Facilitate feeding of unstable products*

# PH Series

Model Shown: PH-24L

## Equipment Benefits

- Heavy gauge, stainless steel construction provides strength, rigidity, cleanliness and minimal maintenance
- Self-leveling, Teflon® coated, hot knife seal bar
- Polycarbonate enclosures ensure safety and provide for quick access
- Engineered as a complete unit with a double insulated tunnel that reduces energy consumption
- PLC with touchscreen interface
- Quick changeovers
- Stainless steel, solid rod tunnel conveyors, free of belts or coatings
